

LIGURIAMIGRANDO web portal has been realized and is managed by FRSL - Regional Federation for Solidarity and Work.

FRSL is a second level association established in 1986 in which different associations, social no profit enterprises, unions and employers' organizations are full members. FRSL has been founded with the objective to support regional and Genoese endangered and poor population's access to labour market opportunities and social inclusion

Since 1992 FRSL runs – in collaboration with Genoese town Council . the CSI – Integrated Services Helpdesk for immigrants with the aim to provide information and support to immigrants in many domains throughout technically and linguistically qualified personnel.

Main available services are:

- ✓ Information and support services for education: counselling and orienteering services for admission to all different level and grades of education programmes available in the local territory.
- ✓ General support for previous foreign education recognition procedures to guarantee an appropriate insertion and entry level in Italian education system.

Since 1996 FRSL runs also – with same services - a contact point in eastern Riviera in collaboration with Sestri Levante Council.

LIGURIAMIGRANDO rises from the experience of GENOVAMIGRANDO programme and aims to be a supportive tool for those who normally deal with foreign population and immigrants in the region.

In the web-portal database are loaded all available references and contact points that would be useful for foreign citizens in complying with bureaucratic procedures and in accessing to information, education and health related services.

Data are packed and made available on a provincial basis in order to allow easy and fast access both for social practitioners as well as for foreign citizens.

In addition the portal offers also information about activities and public social events in the region that would be of some interest in intercultural perspective.

LIGURIAMIGRANDO programme has been made available thanks to PSIR funding schemes of LIGURIA Regional Council.

To submit new initiatives, new services or mistakes in the database please send an email to: info@liguriamigrando.it
